
Radon Testing Initiative

- Show evidence of a radon test conducted in your home and get a gift card.
- Radon kits may be obtained by going to this website https://www.utahradonservices.com/radon_test/ or filling a form located outside my office and mailing it in.
- Once you have received your test kit and obtained the results return a copy of the test to Brian to get your gift card.
- This can be done by employees or spouse, but only one per family.
- If you conducted a test prior to this incentive please contact Brian Coles for how you can obtain a gift card.
